# RESINS - TODAY & TOMORROW - XI

## “Sustainability in Resin Industry”

Dear Sir,

IRMA bi-ennial Seminar on Resins - Today & Tomorrow - XI is planned on Thursday the 6th and Friday the 7th June 2019 in Hotel Fariyas, Lonavala. The theme of the Seminar is "Sustainability in Resin Industry".

The Resin Industry has come a long way starting from the age of Alkyds to the resins used in applications like Aerospace, Automobile, Mobile telephone etc., and the industry is becoming more and more demanding. To cater to ever demanding applications industry, the resin manufacturers has to upgrade resin technology in terms of quality and cost. The resin technology has seen a change from Solvent based to high Solid resin, Water based resin and Resins made out of sustainable raw material. Today smart coatings are becoming more and more popular & towards serving these coatings, you need smart Resins and green Resins. To discuss ever challenging and ever evolving resin technology, we, at IRMA, decided to focus on the theme "Sustainability in Resin Industry" for our Seminar.

On this platform, we will not only discuss about the technology upgradation but will also dwell upon new application areas of resins. Also we will make an effort to share as to how to market these resins in an innovative manner.
